

GAGE LINEAR HIGH BAY

The Gage LED Linear High Bay offers a smart solution for racked out areas, such as warehouses and distribution centres. Efficient and powerful SMD chips delivering up to 26000 lumens powered by a five year warranty driver, combined with an ultra efficient and thermally optimised housing, deliver outstanding lighting performances. The Gage can be surface mounted, suspended (accessories included). The Gage LED linear high bay is engineered to offer highly efficient retrofit solutions to provide fantastic energy cost savings in warehouses, factories, workshops, showrooms and more.
