

The Selectric 5M-PLUS is our first screwless design. Featuring a smooth plate with integral gasket, these accessories are easy to install with a simple clip on metal cover.

A recent overhaul to the 5M-PLUS packaging has resulted in less plastic waste to lower carbon emissions and help protect the environment. Selectric made a resolution to reduce the total amount of plastic used in the manufacturing process, and because of this the products now come in PP5 recyclable bags, with the heavier products such as 2 gang USB sockets and shaver units being presented in biodegradable cardboard inner boxes.

- Slim 5mm depth plate.
- Integral gasket to prevent moisture transfer.
- Metal rockers for a stylish finish.
- LED neons.
- Clip on front plates.
- Up to 15 years guarantee.
- 5M-PLUS products are also available in the GRID360 range and the Euro Media range offering thousands of possible switch combinations.

5M-PLUS products also available in the GRID360 & Euro Media range
